BioFlora Iron[®]

Product Technical Data Sheet

Description:

This is a concentrated formulation seaweed (*Ascophyllum nodosum*) extracts with chelated iron. This product is ideal for applications to soils for increasing root zone development in all types of plants. Foliar applications should be used to help inhibit iron chlorosis in leaves. The organic components of **this product are designed to help increase the plant's photosynthate production.** Natural growth hormones such as auxins, cytokinins and gibberillins from seaweed extracts are used for root stimulation and development.

Guaranteed Analysis

Total Nitrogen (N)	.05%
.05% Water Soluble Nitrogen	
Soluble Potash (K ₂ O)	0.20%
Iron (Fe)	4.00%

Derivation

Derived from Ferrous sulphate and seaweed (*Ascophyllum nodosum*).

Density

10.10 lb per gallon
1.21 kg per liter

Note: buyer assumes all risk of use, storage and handling of this material. Neither the manufacturer, seller, nor its agents, make any warranty, expressed or implied, concerning this product, except in conformity with statements on the label. Information regarding this product can be obtained from BioLynceus.

Information regarding the contents and levels of metals in this product is available by calling 1-800-471-1522.

Application Details

Apply at a rate of 3-6 ounces per 1,000 sq. ft. or 2-5 gallons per acre. Dilute at a minimum rate of 1 part product to 10 parts water. Mix prior to application. Maximum dilution not critical.

Compatibility

Use alone or with any common use fertilizers. Jar test for compatibility before mixing. Shake or circulate before use. Timing and frequency of application should be based on soil and tissue testing. For foliar and soil applications.

Storage and Handling

Store in original container in a cold dry place out of direct sunlight. In case of accidental exposure, flush with water. Product is non-hazardous. May stain clothing. Wear eye protection. Protective gloves recommended.

This product is distributed by BioLynceus[®] Environmental Solutions. BioFlora Iron[®] is registered and manufactured by Global Organics. BioFlora[®] Iron is listed by BioFlora Systems with OMRI.
