

ProBiotic Scrubber[®] PP Product Technical Data

ProBiotic Scrubber® PP is a natural liquid bio-augmentation formulation designed to increase decomposition of organic and inorganic materials. ProBiotic Scrubber® PP is a diverse consortium of beneficial bacteria with a high concentration of hydrocarbon degrader.

Derivation

Derived from kelp, blue-green algae, minerals, micro-nutrients and naturally occurring bacteria.

Density

8.30 lb per gallon 0.99 kg per liter

Storage

It is recommended that the product be used within 12 months of purchase. Do not allow product to freeze. The recommended storage temperature is 50 degrees ferhanheit and higher.

Handling

Product is non-hazardous. In case of accidental exposure, flush with water. Refer to SDS.

Application Instructions

Application rates require an application strategy by a BioLynceus[®] representative for this product. All application details and project scope for the use of this product is only available from a BioLynceus[®] representative due to the complexity of different sites and the different types of contamination.

Application & Program Efficacy

This is a specialty blend that is premixed for the prescribed application. Product should be used within six months of date of purchase. Product contains bio-\stimulants, nutrients and natural occurring microbiology and should be used as prescribed by your BioLynceus® representative. For any questions about the program application and site specific strategies to improve the degradation of contaminants, please consult with your BioLynceus® representative.

- Provides natural materials to remediate Fats, Oils and Grease (FOG).
- Provides effective remediation of floating product in water and wastewater streams.
- Is a suitable solution for Nocardia and FOG related foaming.
- Does not contain materials that are toxic or harmful to the environment.
- Provides a natural solution for reduction of most hydrocarbon based contaminants.
- Can be used to remediate industrial contaminants.

Keep Away From Children – Not for Human Consumption Note: buyer assumes all risk of use, storage and handling of this material. Neither the manufacturer, seller, nor its agents, make any warranty, expressed or implied, concerning this product, except in conformity with statements on the label. Information regarding this product can be obtained from BioLynceus[®].

Beware of counterfeit products, only purchase BioLynceus BioLogical Solutions® products from authorized retailers to guarantee authenticity. All BioLynceus® products not bearing the BioLynceus® name and logo are counterfeit and should be reported to cfo-coo@biolynceus.net and reportfraud.ftc.gov.
