ProBiotic Scrubber® PAO Product Technical Data

ProBiotic Scrubber® PAO is a natural liquid bioaugmentation formulation designed to increase decomposition of organic and inorganic materials. **ProBiotic Scrubber® PAO** is a diverse consortium of beneficial bacteria with a high concentration of phosphorous accumulating organisms (PAOs).

Derivation
Derived from kelp, blue-green algae, minerals, micronutrients and beneficial bacteria with a high concentration of PAOs.

Density
8.30 lb per gallon
0.99 kg per liter

Storage
It is recommended that the product be used within 6 months of Purchase. Avoid excessive heat. Avoid direct sunlight. Do not allow product to freeze.

Handling
Product is non-hazardous. In case of accidental exposure, flush with water. Refer to SDS.

Application Instructions
Application rates require a strategy determined by a BioLynceus® representative for this product. All application details and project scope for the use of this product are only available from a BioLynceus® representative due to the complexity of different sites and the different types of treatment systems. Add to anoxic zone or in RAS 1 gallon per MGD of total inflow. Minimum apply ratio is two quarts per day.

Application & Program Efficacy
This is a specialty blend that is premixed for the prescribed application. Product should be used within six months of date of purchase. Product contains biostimulants, nutrients and natural occurring microbiology and should be used as prescribed by your BioLynceus® representative. For any questions about the program application and site specific strategies, please consult with your BioLynceus® representative.

Beware of counterfeit products; only purchase BioLynceus BioLogical Solutions® products from authorized retailers to guarantee authenticity. All BioLynceus® products not bearing the BioLynceus® name and logo are counterfeit and should be reported to cfo-coo@biolynceus.net and Reportfraud.tc.gov.

Features and Benefits

Utilized in wastewater streams to improve the reduction of phosphorous, BOD and TSS

- Can be used to remediate industrial contaminates
- Help reduce solids
- Is suitable solution for Nocardia and FOG related foaming
- Provides a natural solution for reduction of most hydrocarbon based contaminants
- Does not contain materials that are toxic or harmful to the environment

Keep Away From Children – Not for Human Consumption

Note: buyer assumes all risk of use, storage and handling of this material. Neither the manufacturer, seller, nor its agents, make any warranty, expressed or implied, concerning this product, except in conformity with statements on the label. Information regarding this product can be obtained from BioLynceus®. Do not allow product to freeze.
